Sri Vidyaniketan Public School, CBSE   05-2019 to 03-2020

TECHNICAL SKILLS

- **Programming Languages:** C++, Python.
- **Web Development:** HTML, CSS, Bootstrap, JavaScript, Node.js, Express.js, PostgreSQL.
- **Course Work:** DBMS (MySQL), Computer Networks, Cloud Computing, Operating System.
- **Developer Tools:** VS Code, GitHub, Git, Postman.

PROJECTS

QuickReserve - Full Stack Project   💻 **GitHub**
- Built and deployed **QuickReserve**, a train ticket booking platform using **Node.js**, **Express**, **PostgreSQL**, and vanilla web stack. Users can register, book tickets, and search trains; admins manage trains, bookings, and users via a secure dashboard.

SMS Spam Classifier - Machine Learning Project   💻 **GitHub**
- Built a Machine Learning-based SMS/Email Spam Classifier using **Python**, **Streamlit**, and Scikit-learn with enhanced accuracy on phishing messages.

Project Management Tool - Full Stack Project   💻 **GitHub**
- Built a web-based project and task management tool with role-based access, real-time chat, Kanban boards, and Gantt chart visualization, using Node.js, Express.js, **MySQL**, **WebSocket**, and Frappe Gantt.

ACHIEVEMENTS

- Successfully completed the Cyber Risk and Regulatory Launchpad Program at **PwC** (Feb 2025 – July 2025), with training in Python, Cybersecurity, and Prompt Engineering.
- **Finalist at BNP Paribas Tech Hackathon Innoversite 2025** – Selected among 600 from 31,000+ registrants and built an innovative project solving real-world challenges.

CERTIFICATION / TRAINING

- Full Stack Web Development certificate – Udemy.
- AWS Cloud Practitioner Essentials – AWS Skill Builder.
- Cyber Security – PwC.
- Prompt Engineering – PwC.
- Python Programming Fundamentals – PwC.

POSITION OF RESPONSIBILITY

- **Student Coordinator:** Organized and managed social service events for **NSS**, demonstrating leadership and community engagement skills.
- **Club Member:** Chiguru – Kannada Club, NMIT Chess Club.
